RE: Sampling visit to GE, 510 E Agency Rd, West Burlington, IA

Dear Mr. Robinson:

The U.S. Environmental Protection Agency (EPA) Region 7 would like to address your concerns regarding our upcoming sampling visit to the GE facility at 510 E Agency Rd. EPA needs to fill in data gaps in order to make the determination that we have completed our environmental work at this location. We believed it would be more expeditious for EPA to do the sampling using contractors than to request General Electric to conduct this sampling.

The previous RFA identified releases from some of the former solid waste management units (SWMU), such as the wastewater (plating) underground storage tanks (USTs) on the west of the site. Soil samples showed a release but no groundwater samples were collected at this location. I am including a map of planned sampling locations with this letter. Our contractors plan to be at GE, 510 Agency Rd., on December 8, 2010, to conduct this sampling.

If you have any more questions or would like to discuss this further, please call me at (913) 551-7478 or email me at [hutchison.cynthia@epa.gov](mailto:hutchison.cynthia@epa.gov).

Sincerely,

RCRA
